

Luminescence in Archaeology International Symposium

Institute of Earth and Environmental Sciences
University of Freiburg, Germany
April 3rd to 6th, 2019

The 4th Luminescence in Archaeology International Symposium will be hosted by the Sedimentary Geology and Quaternary Research Group at the University of Freiburg (Germany).

LAIS 2019 continues the series of symposia initiated in Delphi 2009, Lisbon 2012 and Paris 2015. It is an international initiative focussing on the use of luminescence for the dating and analysis of materials in archaeological and geoarchaeological context. In addition it supports archaeological and archaeometrical communities to further develop and expose luminescence methodology.

Topics

- Advances in luminescence methodology
- Dose rate determination
- Innovative materials
- Application in all fields of archaeological sciences
- (Geo-)Archaeological case studies

Organisation

Local organiser: F. Preusser

International standing committee: I. Liritzis (Chairman, Rhodes, Greece), N. Zacharias, (Kalamata, Greece), A. Zink (Paris, France), Ana Luísa Rodrigues (Lisbon, Portugal).

Provisional programme

Abstract confirmation: December 15th 2018

Conference fee: EUR 240,-

Student fee: EUR 160,-

Accompanying persons: EUR 100,-*

The fee includes attendance, book of abstracts, lunch and coffee breaks, ice-breaker party, conference dinner, and a guided tour in the old town of Freiburg. (* ice breaker, old town tour and conference dinner)

Accommodation

A wide choice of accommodation is available in Freiburg. You are strongly advised to book your accommodation right in advance as Freiburg is a main tourist attraction. A number of rooms at reduced price will be booked by the conference organisers that will be available until January 15th, 2018. Details are provided after registration.

Venue address

The conference site (Geological Institute, Albertstraße 23b, 79104 Freiburg) is just outside the city centre, with many hotels close by, ca. 10 min walking from the main station.
